DISTRICT COURT.—We are indebted to a legal friend for the following list of cases disposed of at the last term of the District Court, for this county:

STEPHEN F. RANDOLPH, vs. HIRSH F. RANDOLPH.—Appeal from Common Pleas—Appeal dismissed. L. J. Critchfield & W. P. Reid, for plaintiff; Powell and Vandeneur and C. Sweeter, for defendant.

WILLIAM BREWER vs. MARTIN RUTTER.—Civil action for damages for slanderous words spoken. Verdict for defendant; Powell and Hall for plaintiff; L. J. Critchfield for defendant.

JON HARRIS vs. NATHAN CHESTER.—Civil action to recover amount of promissory note. Verdict for defendant. Powell and Vandeneur, for plaintiff; L. J. Critchfield for defendant.

W. P. REID vs. JULIA ANN TWIGGS.—Appeal from Common Pleas. Appeal dismissed. Reid & Eaton, for plaintiff; C. Sweeter for defendant.

JOHN W. SEXTON vs. INGLES & McLEON.—Appeal. Judgment for plaintiff. Hubbard & Hall, for plaintiff; Sweetser & Hall and Walter Thrall for defendants.

JACOB TERRY & WIFE vs. THE C. C. & C. R. CO.—Civil action for damages for injuries alleged to have been sustained by plaintiff through the negligence of the defendants; motion granted. Defendants to pay all costs heretofore made. W. P. Reid and Powell & Vandeneur for plaintiff; Jones & Carter, L. J. Critchfield & T. H. Baile for defendants.

ARTIFICIAL SLATE FOR ROOFING.—We have had the pleasure of examining specimens of a Patent Artificial Slate for Roofing, which is attracting the attention of practical business men, property-owners, &c., in all parts of the country where it has been introduced. We are informed by Mr. Weaver, the proprietor of the patent, that it has not failed in any instance to give the first premium at every Fair where it has been on exhibition, and in every case when brought in competition with other roofing it has taken the preference. It is perfectly fire and water-proof and as durable as natural slate for roofing. It being laid in sheets of 24 inches square, it has the advantage over all other composition roofs, as it can yield to the expansion and contraction of the sheeting on which it is laid without any danger of cracking. It has three times the thickness of any other composition roof in view—being cheap and durable—making it altogether the most desirable roofing material ever offered to the public. We would advise all business men and property-owners to call and see the specimen and judge for themselves, as all are interested in an invention so valuable as this.

MR. JASON WEAVER, of Urbana, Ohio, the proprietor of the patent for the United States, is now at the American House, where he will be happy to show the samples and a model of the machine for manufacturing. We hope some of our enterprising citizens will become interested enough to start a manufactory of the roofing in this place.

THE ATLANTIC MONTHLY.—The November number of this interesting American monthly is promptly at hand. The articles are all original and from able pens. We subjoin the table of contents:

Railway Engineering in the United States; Her Grace, the Drummer's Daughter; Work and Rest; Collin Clout and the Fairy Queen; Miss Wimble's Hoop; Nature and the Philosopher; Thomas Jefferson; A Prisoner of War; "The Washing of the Face," on Holy Thursday, in St. Peter's; Physical Courses; November; A Visit to the Autocrat's Land; The Great Event of the Century; The Last Look; A Sample of Consistency, and Literary Notices.

PEDESTAL SPECTACLES.—Mr. Joseph S. Pease, of the Cleveland Optical Institute, is in town with a large assortment of the Peacock's Pedestal Spectacles. He warrants his glasses to suit in all cases. The glasses are of the purest kind of Brazilian Para-bola Quartz imported by the Institute, and ground in conical convex form by himself. He stops at the Show House, and as he intends to stay a few days only we are confident that all persons wishing to improve their sight will make use of the rare chance and give him an opportunity to serve them.

The ringing of the fire bells about four o'clock Monday morning last, was caused by the escape from those engaged in watching him of a student delirious from the effects of typhoid fever. After a search of an hour or more he was found secreted in the Brewery of F. Arkwright, to which he had gained access by raising a back window. He had nothing on at the time but his night clothes, but we learned sustained no injury from the exposure.

ALUM CREEK POST OFFICE, in Berlin township, on the road between this place and Berlekaire, has been discontinued in consequence of the removal from the neighborhood of the late Post Master. It is to be hoped a proper successor will soon be found and the office re-established, as the locality is one in which great inconvenience will result if the discontinuance is permanent.

See advertisement of "Duff's Merchant's College." This is a branch, at Columbus, of the old-established and celebrated Commercial College of P. Duff, at Pittsburgh, Pa., and affords superior facilities for receiving a thorough knowledge of book-keeping and kindred branches.

GOREY'S LADY'S BOOK.—The November number of this popular monthly is received, and presents its usual attractions. As the title indicates, it is a "Ladies' Magazine," and such stands universal.

The election of officers of the Delaware County Agricultural Society takes place tomorrow at Tempstar Hall.

The third letter from Mr. P. C. Wilson, our European correspondent, will be found on the first page.

Dr. Tunks will be at the American on Monday next.

Rate, Roaches, Bugs, Insects, &c.
What the People say.

New York, April 15, 1858.

DEAR MR.—Having a great many rats around my stable and shop, I thought I would try your Rat Exterminator, and bought one of your boxes and fixed it according to your directions. The next morning I found over one hundred rats dead, and the next day over two hundred. I have also tried it on steam-boats, and satisfied them that it is the greatest thing of the age.

J. S. UNDERHILL, No. 455 10th st.

See "Costar's" advertisement in another column.

INFLAMMATION OF THE EYES.—Like all other inflammation, is caused by impurity of the blood which gives all eruptive diseases, as small pox, measles, &c. The blood becoming unwholesome, and of an impure nature also occasions droppings. The blood becoming impure, and the vessels filled with excretions, is thrown out from the extremities, and droppings is the result. Many former diseases, and the vessels being filled by excretions, burst and bleed. Froo evanescing, and the body all inflamed, which will drive the body all the more.
